

ISLAND SAFARI 4X4 & BEACH

AKTIV & EVENTYR

Once you've stepped off the ship and boarded a specially customised photo safari jeep, you can simply sit back and begin to enjoy Antigua and its delightfully verdant landscape. This off-road exploration will first take you south of St. John's en route to the village of Bendals and the ecologically important Body Pond watershed area. Look out for amazing tropical flora and agricultural plantations as you travel through the off-road reaches of the scenic valley. From the village of Swetes, the tour then continues on through lush rainforest, with mango trees and pineapple plants all around, to the southern coast and Old Road Village for refreshments. This was the first western settlement on the island, established in 1632 by the British naval explorer Captain Thomas Warner. Have your camera ready to take some stunning photos of the gorgeous coastline and Caribbean Sea before you head off again along the island's southern coast en route to a heavenly beach and a refreshing dip in the azure-blue waters. Your return journey will take you to see more of Antigua's picturesque villages and stunning landscape – with further opportunities to take fabulous photos along the way. The tour ends with your return to the port and your ship. Please note: the tour is considered to be unsuitable for pregnant women and guests suffering from pre-existing neck/back conditions. This is not a self-drive tour; a driver will be provided.
