

NORTHERN VIEWS & HISTORICAL PIGEON ISLAND

BYTUR | SLU28

Take a little time to visit the northern reaches of St. Lucia, including Pigeon Island, on a tour that begins with a coach ride through the capital, Castries City, and on to the Morne Fortune vantage point. After a chance to savour and photograph amazing views of Castries Harbour and the northern landscape, you'll travel through the Morne Complex on a scenic route that skirts the city. Look out for charming communities and splendid vistas of the Caribbean Sea and Atlantic Ocean as the coach heads for the small village of La Guerre, where stunning bird's-eye views of the marvellous Marquis Estate – once one of the island's largest banana plantations and now a luxury resort – await you. Your next stop will then be at Monchy, an excellent place to see Rodney Bay and Pigeon Island from afar and take some more photos, before you move on to the Cap Estate residential area, home also of the exclusive St. Lucia Golf and Country Club. Although it is still called an island, the Pigeon Island National Park – the final highlight on the tour – was actually linked to the mainland by a causeway in the early 1970s. Situated on Pigeon Island is the 19th-century British-built Fort Rodney. A tour of the historic remains will give you a glimpse back in time, after which your return journey will take you through the village of Gros Islet to bring the tour to a close. Please note: guests are recommended to wear cool, comfortable clothing, and flat rubber-soled shoes. Guests should be in good health and not suffering from pre-existing back, leg, hip, neck or respiratory conditions.
